Zorn G, 858
Zorn-Chelton S, 838

Subject index*

A

Adrenergic receptor density
Increased β-adrenergic receptor density in experimental model of cardiac transplantation (Lurie et al.), 195

Adrenergic receptor function
Ligand binding assay and its role in understanding adrenergic receptor function (Homcy), 193 (edit.)

Air embolism
Coronary artery air embolism following pulmonary valvotomy for pulmonary atresia: note of caution (Stewart et al.), 311 (brief comm.)
Massive air embolus due to Pall filter malfunction (Sade et al.), 156 (letter); Reply (Pascale), 791

Airways
Compression of major airways by aneurysm of descending thoracic aorta (Varkey), 315 (letter); Reply (Charrette et al.), 315

American Association for Thoracic Surgery
Announcement of 1984 Annual Meeting, 159, 319, 475, 635, 795, 935
Annual meeting notes, 316
Graham Traveling Fellowship, 158, 318
Roster of members, 457

American Board of Thoracic Surgery
Announcement of 1984 examination, 162, 322, 478, 638, 798, 938
Announcement of recertification examination, 478, 638, 798, 938

Anastomosis
Avoiding anastomotic leakage following esophagogastrostomy (Liu et al.), 142 (curr. tech.)
Growth of aorta-coronary anastomosis: experimental study in pigs (Brutel de la Rivière et al.), 393

Aneurysm
Aneurysm of diverticulum of ductus arteriosus in adult: successful surgical treatment in five patients and review of literature (Mitchell et al.), 400
Compression of major airways by aneurysm of descending thoracic aorta (Varkey), 315 (letter); Reply (Charrette et al.), 315
Hypothermia and circulatory arrest for surgical resection of aortic arch aneurysms (Antunes et al.), 576
Surgical treatment of aneurysm of ascending aorta with aortic insufficiency: selective approach (Grey et al.), 864

Angioplasty, operative transluminal
Technique and results of operative transluminal angioplasty in 81 consecutive patients (Mills et al.), 689

Anomaly, Taussig-Bing
New variation of Damus-Stansel-Kaye procedure for correction of Taussig-Bing anomaly (Glaser and Castaneda), 157 (letter); Reply (Sapsford), 157

Antibacterial irrigants
Pericardial injury by antibacterial irrigants (Kratz et al.), 785 (brief comm.)

Antibiotics
Antibiotic prophylaxis for coronary bypass grafting: comparison of five-day and two-day course (Hillis et al.), 217

Anulus, aortic
Enlargement of aortic root or anulus with autogenous pericardial patch during aortic valve replacement: long-term follow-up (Pichler et al.), 350

Aorta
Cardiac and renal responses to cross-clamping of descending thoracic aorta (Roberts et al.), 732
Coarctation in Taussig-Bing malformation of heart: surgical significance (Parr et al.), 280
Growth of aorta-coronary anastomosis: experimental study in pigs (Brutel de la Rivière et al.), 393
Management of infants with left ventricular outflow obstruction by conduit interposition between ventricular apex and thoracic aorta (Norwood et al.), 771

*July, pp. 1-162; August, pp. 163-322; September, pp. 323-478; October, pp. 479-638; November, pp. 639-798; December, pp. 799-958.

Aorta—Cont'd
Parallel growth of rectus sheath grafts and recipient aorta: critical role of graft tissue preservation (Bilfinger et al.), 294
Spontaneous nontraumatic rupture of thoracic aorta (Widder et al.), 626 (brief comm.)
Surgical management of severe coarctation of aorta in first month of life: review of 48 consecutive cases (Nair et al.), 587
Aortic aneurysm
Compression of major airways by aneurysm of descending thoracic aorta (Varkey), 315 (letter); Reply (Charrette et al.), 315
Surgical treatment of aneurysm of ascending aorta with aortic insufficiency: selective approach (Grey et al.), 864
Aortic arch
Hypothermia and circulatory arrest for surgical resection of aortic arch aneurysms (Antunes et al.), 576
Interrupted aortic arch: conservative approach for sick neonate (Kron et al.), 37
Pulmonary artery partition: new method for correction of interrupted aortic arch (Utley et al.), 309 (brief comm.)
Repair of type B interruption of aortic arch: results and follow-up (Braunlin et al.), 920
Reparative operations for interrupted aortic arch with ventricular septal defect (Norwood et al.), 832
Aortic isthmic hypoplasia
Aortopulmonary window and aortic isthmic hypoplasia: operative management in newborn infants (Tabak et al.), 273
Aortic root
Complete extra-anatomic bypass of aortic root: treatment of recurrent mediastinal infection (Bove et al.), 932 (brief comm.)
Aortic valve
Enlargement of aortic root or anulus with autogenous pericardial patch during aortic valve replacement: long-term follow-up (Piehler et al.), 350
Entrapment of both leaflets of St. Jude Medical aortic valve prosthesis in child (Sharma et al.), 453 (letter)
Hall-Kaster aortic valve (Beaudet), 456 (letter); Reply (Antunes et al.), 456
Role of mechanical stress in calcification of aortic bioprosthetic valves (Thubrikar et al.), 115
Surgical treatment of aneurysm of ascending aorta with aortic insufficiency: selective approach (Grey et al.), 864
Aortopulmonary window
Aortopulmonary window and aortic isthmic hypoplasia: operative management in newborn infants (Tabak et al.), 273
Apex, ventricular
Management of infants with left ventricular outflow obstruction by conduit interposition between ventricular apex and thoracic aorta (Norwood et al.), 771
APUD tumor spectrum
Typical and atypical carcinoids within pulmonary APUD tumor spectrum (DeCaro et al.), 528
Arch, aortic
Hypothermia and circulatory arrest for surgical resection of aortic arch aneurysms (Antunes et al.), 576
Interrupted aortic arch: conservative approach for sick neonate (Kron et al.), 37
Pulmonary artery partition: new method for correction of interrupted aortic arch (Utley et al.), 309 (brief comm.)
Repair of type B interruption of aortic arch: results and follow-up (Braunlin et al.), 920
Reparative operations for interrupted aortic arch with ventricular septal defect (Norwood et al.), 832
Arrest
Atrial electrical activity and its suppression during cardioplegic arrest in pigs (Novick et al.), 235
Duration of circulatory arrest does influence psychological development of children after cardiac operation in early life (Wells et al.), 823
Effect of hypothermic circulatory arrest time on cerebral function, morphology, and biochemistry: experimental study (Treasure et al.), 761
Hypothermia and circulatory arrest for surgical resection of aortic arch aneurysms (Antunes et al.), 576
Time course of ischemic alterations during normothermic and hypothermic arrest and its reflection by on-line monitoring of tissue pH (Lange et al.), 418
Arrhythmias
Arrhythmias and conduction disturbances following cardiac operation for removal of left atrial myxomas (Bateman et al.), 601
Supraventricular arrhythmias following coronary artery bypass: effect of preoperative digitalis (Parker et al.), 594
Arteriography
Arteriography in first rib fractures (Poole and Myers), 453 (letter)
Artery(ies). *See also* specific artery
Extrathoracically adjustable pulmonary artery banding (Muraoka et al.), 582
Valved and nonvalved right ventricular–pulmonary arterial extracardiac conduits: experimental comparison (Fiore et al.), 490
Assay
Ligand binding assay and its role in understanding adrenergic receptor function (Homcy), 193 (edit.)
Assist device
Late functional and hemodynamic status of surviving patients following insertion of left heart assist device (Rose et al.), 639
Atresia, pulmonary
Coronary artery air embolism following pulmonary valvotomy for pulmonary atresia: note of caution (Stewart et al.), 311 (brief comm.)
Palliative right ventricular outflow tract construction for patients with pulmonary atresia, ventricular septal defect, and hypoplastic pulmonary arteries (Freedom et al.), 24
Atresia, tricuspid
Liver fibrosis (cardiac cirrhosis) five years after modified Fontan operation for tricuspid atresia (Lemmer et al.), 757
Atrial electrical activity
Atrial electrical activity and its suppression during cardioplegic arrest in pigs (Novick et al.), 235
Atrial isomerism, left
Surgical correction in mirror-image atrial arrangement or left atrial isomerism with systemic venous return to left-sided atrium (Pillai et al.), 288
Atrial myxoma
Arrhythmias and conduction disturbances following cardiac operation for removal of left atrial myxomas (Bateman et al.), 601
Atrioventricular canal
Individualized surgical management of complete atrioventricular canal (Williams et al.), 838
Atrioventricular discordance
Isolated atrioventricular discordance: report of two surgical cases with isolated ventricular inversion (Ostermeyer et al.), 926
Atrium
Atrial wound healing with polyglycolic acid and polypropylene sutures (Vincent et al.), 150 (brief comm.)
Left atrium–to–femoral artery bypass: effectiveness in reduction of acute experimental myocardial infarction (Catinella et al.), 887

Atrium—Cont'd
Surgical correction in mirror-image atrial arrangement or left atrial isomerism with systemic venous return to left-sided atrium (Pillai et al.), 288
Automatic implantable defibrillator
Trials of automatic implantable defibrillator in man: three-year program report (Watkins et al.), 381
Autotransfusion
Increased heparin requirements with autotransfusion (Mummaneni et al.), 446 (brief comm.)

B

Balloon catheter dilatation
Comparison of early and long-term results with intraoperative transluminal balloon catheter dilatation and coronary artery bypass grafting (Roberts et al.), 435
Balloon counterpulsation
Pulmonary artery balloon counterpulsation for right ventricular failure: experimental evaluation (Jett et al.), 364
Balloon, intra-aortic
Surgical versus percutaneous removal of intra-aortic balloon (Cutler et al.), 907
Warm induction of cardioplegia with glutamate-enriched blood in coronary patients with cardiogenic shock who are dependent on inotropic drugs and intra-aortic balloon support: initial experience and operative strategy (Rosenkranz et al.), 507
Banding, pulmonary artery
Extrathoracically adjustable pulmonary artery banding (Muraoka et al.), 582
Baroreflex control
Impairment of baroreflex control of sinoatrial node after cardiac operations with extracorporeal circulation in man (Marin-Neto et al.), 718
Benign teratomas
Benign teratomas of mediastinum (Lewis et al.), 727
Billroth
Theodor Billroth and cardiac surgery (Absolon), 451 (edit.)
Biochemistry, cerebral
Effect of hypothermic circulatory arrest time on cerebral function, morphology, and biochemistry: experimental study (Treasure et al.), 761
Bioprosthesis, valve
Five- to eight-year follow-up of patients with Hancock cardiac bioprosthesis (Gallo et al.), 897
Role of mechanical stress in calcification of aortic bioprosthetic valves (Thubrikar et al.), 115
Björk-Shiley valve
Acute, complete, extrinsic obstruction of Björk-Shiley valve in immediate postoperative period (Blasko et al.), 630 (brief comm.)
Mechanical valves: comparative analysis of Starr-Edwards and Björk-Shiley prostheses (Murphy et al.), 746
Physical analysis of Björk-Shiley prosthetic valve sound (Schöndube et al.), 136
Blocks, nerve
Complications of intercostal nerve blocks performed under direct vision during thoracotomy: report of two cases (Gallo et al.), 628 (brief comm.)
Blood
Brain hyperperfusion during cardiac operations. Cerebral blood flow measured in man by intra-arterial injection of xenon 133: evidence suggestive of intraoperative microembolism (Henriksen et al.), 202
Blood—Cont'd
Comparison of distribution beyond coronary stenoses of blood and asanguineous cardioplegic solutions (Robertson et al.), 80
Warm induction of cardioplegia with glutamate-enriched blood in coronary patients with cardiogenic shock who are dependent on inotropic drugs and intra-aortic balloon support: initial experience and operative strategy (Rosenkranz et al.), 507
Brain hyperperfusion
Brain hyperperfusion during cardiac operations. Cerebral blood flow measured in man by intra-arterial injection of xenon 133: evidence suggestive of intraoperative microembolism (Henriksen et al.), 202
Bretschneider's solution
Bretschneider's histidine-buffered cardioplegic solution and calcium paradox (Ruigrok et al.), 412
Bronchogenic carcinoma
Treatment of modified Stage II (T1 N1 M0, T2 N1 M0) non–small cell bronchogenic carcinoma: combined modality approach (Newman et al.), 180
Bronchopleural fistula
Open window thoracostomy in management of postpneumonectomy empyema with or without bronchopleural fistula (Shamji et al.), 818
Bronchus, main-stem
Treatment of malignant disease in trachea and main-stem bronchi by carbon dioxide laser (McElvein and Zorn), 858
Bypass of aortic root
Complete extra-anatomic bypass of aortic root: treatment of recurrent mediastinal infection (Bove et al.), 932 (brief comm.)
Bypass, cardiopulmonary
Comparison of cefamandole and cefazolin during cardiopulmonary bypass (Bryan et al.), 222
Complement and damaging effects of cardiopulmonary bypass (Kirklin et al.), 845
Effect of pulsatile flow during cardiopulmonary bypass (Taylor), 454 (letter); Reply (Philbin et al.), 455
Heparin resistance during cardiopulmonary bypass (Hicks), 633 (letter); Reply (Esposito), 633
Spontaneous ventricular fibrillation occurring immediately after institution of cardiopulmonary bypass: possible clinical implications (Salerno and Stefaniszyn), 306 (brief comm.)
Whole-body oxygen consumption during low-flow hypothermic cardiopulmonary bypass (Hickey and Hoar), 903
Bypass, coronary. *See also* Revascularization
Antibiotic prophylaxis for coronary bypass grafting: comparison of five-day and two-day course (Hillis et al.), 217
Characteristics of left ventricular thrombus resulting in perioperative embolism: complication of coronary artery bypass grafting (Hartman et al.), 706
Comparison of early and long-term results with intraoperative transluminal balloon catheter dilatation and coronary artery bypass grafting (Roberts et al.), 435
Coronary artery bypass grafting in patients with ejection fractions below forty percent: early and late results in 466 patients (Hochberg et al.), 519
Diagnostic criteria and prognosis of perioperative myocardial infarction following coronary bypass (Guiteras Val et al.), 878
Is a left ventricular vent necessary for coronary artery bypass operations performed with cardioplegic arrest? (Breyer et al.), 338
Mechanism of plasma catecholamine increases during coronary artery bypass and valve procedures (Engelman et al.), 608
Selective right ventricular dysfunction after coronary artery bypass grafting (Rabinovitch et al.), 444 (brief comm.)

Bypass, coronary—Cont'd
Sequential internal mammary–coronary artery bypass (Kabbani et al.), 697
Supraventricular arrhythmias following coronary artery bypass: effect of preoperative digitalis (Parker et al.), 594
Bypass, left atrium–to–femoral artery
Left atrium–to–femoral artery bypass: effectiveness in reduction of acute experimental myocardial infarction (Catinella et al.), 887

C

Calcification
Early experience with Ionescu-Shiley pericardial xenograft valve: accelerated calcification in children (Walker et al.), 570
Role of mechanical stress in calcification of aortic bioprosthetic valves (Thubrikar et al.), 115
Calcium-channel blockers
Cardioplegia and slow calcium-channel blockers: studies with verapamil (Yamamoto et al.), 252
Calcium paradox
Bretschneider's histidine-buffered cardioplegic solution and calcium paradox (Ruigrok et al.), 412
Canal, atrioventricular
Individualized surgical management of complete atrioventricular canal (Williams et al.), 838
Cancer, lung
Modern thirty-day operative mortality for surgical resections in lung cancer (Ginsberg et al.), 654
Reduction in local recurrence and improved survival in surgically treated patients with small cell lung cancer (Shepherd et al.), 498
Regional and overall pulmonary function changes in lung cancer: correlations with tumor stage, extent of pulmonary resection, and patient survival (Ali et al.), 1
Roentgenographically occult lung cancer: ten-year experience (Cortese et al.), 373
Carbon dioxide laser
Treatment of malignant disease in trachea and main-stem bronchi by carbon dioxide laser (McElvein and Zorn), 858
Carcinoids
Typical and atypical carcinoids within pulmonary APUD tumor spectrum (DeCaro et al.), 528
Carcinoma, bronchogenic
Treatment of modified Stage II (T1 N1 M0, T2 N1 M0) non–small cell bronchogenic carcinoma: combined modality approach (Newman et al.), 180
Carcinoma of lung
Prognostic significance of N1 disease in carcinoma of lung (Martini et al.), 646
Cardiac bioprosthesis, Hancock
Five- to eight-year follow-up of patients with Hancock cardiac bioprosthesis (Gallo et al.), 897
Cardiac cirrhosis
Liver fibrosis (cardiac cirrhosis) five years after modified Fontan operation for tricuspid atresia (Lemmer et al.), 757
Cardiac hypertrophy
Verapamil for refractory ventricular fibrillation during cardiac operations in patients with cardiac hypertrophy (Fyke et al.), 108
Cardiac operation
Arrhythmias and conduction disturbances following cardiac operation for removal of left atrial myxomas (Bateman et al.), 601
Cardiac operation—Cont'd
Brain hyperperfusion during cardiac operations. Cerebral blood flow measured in man by intra-arterial injection of xenon 133: evidence suggestive of intraoperative microembolism (Henriksen et al.), 202
Duration of circulatory arrest does influence psychological development of children after cardiac operation in early life (Wells et al.), 823
Impairment of baroreflex control of sinoatrial node after cardiac operations with extracorporeal circulation in man (Marin-Neto et al.), 718
Theodor Billroth and cardiac surgery (Absolon), 451 (edit).
Verapamil for refractory ventricular fibrillation during cardiac operations in patients with cardiac hypertrophy (Fyke et al.), 108
Cardiac transplantation
Increased β-adrenergic receptor density in experimental model of cardiac transplantation (Lurie et al.), 195
Cardiac valve
Cardiac valve surgery—"French correction" (Carpentier), 323 (Honored Guest's Address)
Cardiogenic shock
Warm induction of cardioplegia with glutamate-enriched blood in coronary patients with cardiogenic shock who are dependent on inotropic drugs and intra-aortic balloon support: initial experience and operative strategy (Rosenkranz et al.), 507
Cardioplegia
Alterations in regional myocardial function after heterogeneous cardioplegia (Dorsey et al.), 70
Atrial electrical activity and its suppression during cardioplegic arrest in pigs (Novick et al.), 235
Bretschneider's histidine-buffered cardioplegic solution and calcium paradox (Ruigrok et al.), 412
Cardioplegia and slow calcium-channel blockers: studies with verapamil (Yamamoto et al.), 252
Comparison of alternative cardioplegic techniques (Weisel et al.), 97
Comparison of distribution beyond coronary stenoses of blood and asanguineous cardioplegic solutions (Robertson et al.), 80
High-volume crystalloid cardioplegia: improved method of myocardial preservation (Engelman et al.), 87
Is a left ventricular vent necessary for coronary artery bypass operations performed with cardioplegic arrest? (Breyer et al.), 338
Scavenging of cardioplegic solution from right heart to prevent hyperkalemia (Kopman and Ferguson), 153 (brief comm.)
Warm induction of cardioplegia with glutamate-enriched blood in coronary patients with cardiogenic shock who are dependent on inotropic drugs and intra-aortic balloon support: initial experience and operative strategy (Rosenkranz et al.), 507
Cardiopulmonary bypass. *See* Bypass, cardiopulmonary
Catecholamine
Mechanism of plasma catecholamine increases during coronary artery bypass and valve procedures (Engelman et al.), 608
Catheter
Catheter-induced pulmonary arterial trauma: Can it always be averted? (Stone et al.), 146 (brief comm.)
Comparison of early and long-term results with intraoperative transluminal balloon catheter dilatation and coronary artery bypass grafting (Roberts et al.), 435
Catheterization
Hancock external valved conduit: dichotomy between late clinical results and late cardiac catheterization findings (Stewart et al.), 562

Caval stenosis
Caval stenosis caused by transvenous pacemaker lead (McKenzie), 791 (letter)
Cefamandole
Comparison of cefamandole and cefazolin during cardiopulmonary bypass (Bryan et al.), 222
Cefazolin
Comparison of cefamandole and cefazolin during cardiopulmonary bypass (Bryan et al.), 222
Cerebral function
Effect of hypothermic circulatory arrest time on cerebral function, morphology, and biochemistry: experimental study (Treasure et al.), 761
Chest
Diagnosis and management of hypothyroid patient with chest pain (Myerowitz et al.), 57
Treatment of flail chest with Judet's struts (Menard et al.), 300 (curr. tech.)
Childhood. *See also* Infancy
Duration of circulatory arrest does influence psychological development of children after cardiac operation in early life (Wells et al.), 823
Early experience with Ionescu-Shiley pericardial xenograft valve: accelerated calcification in children (Walker et al.), 570
Entrapment of both leaflets of St. Jude Medical aortic valve prosthesis in child (Sharma et al.), 453 (letter)
Mitral valve replacement in young patient with rheumatic heart disease: early and late results in 118 subjects (John et al.), 209
Circulation, extracorporeal
Impairment of baroreflex control of sinoatrial node after cardiac operations with extracorporeal circulation in man (Marin-Neto et al.), 718
Circulatory arrest
Duration of circulatory arrest does influence psychological development of children after cardiac operation in early life (Wells et al.), 823
Effect of hypothermic circulatory arrest time on cerebral function, morphology, and biochemistry: experimental study (Treasure et al.), 761
Cirrhosis, cardiac
Liver fibrosis (cardiac cirrhosis) five years after modified Fontan operation for tricuspid atresia (Lemmer et al.), 757
Coarctation of aorta
Coarctation in first year of life: patterns of postoperative effect (Waldman et al.), 9
Coarctation in Taussig-Bing malformation of heart: surgical significance (Parr et al.), 280
Surgical management of severe coarctation of aorta in first month of life: review of 48 consecutive cases (Nair et al.), 587
Complement
Complement and damaging effects of cardiopulmonary bypass (Kirklin et al.), 845
Computer
Computer-assisted design of pivoting disc prosthetic mitral valves (McQueen and Peskin), 126
Conduction disturbances
Arrhythmias and conduction disturbances following cardiac operation for removal of left atrial myxomas (Bateman et al.), 601
Conduit
Hancock external valved conduit: dichotomy between late clinical results and late cardiac catheterization findings (Stewart et al.), 562
Conduit—Cont'd
Management of infants with left ventricular outflow obstruction by conduit interposition between ventricular apex and thoracic aorta (Norwood et al.), 771
Valved and nonvalved right ventricular–pulmonary arterial extracardiac conduits: experimental comparison (Fiore et al.), 490
Congenital heart disease
Vascular consequences of subclavian artery transection for treatment of congenital heart disease (Lodge et al.), 18
Consumption, oxygen
Whole-body oxygen consumption during low-flow hypothermic cardiopulmonary bypass (Hickey and Hoar), 903
Coronary artery
Characteristics of left ventricular thrombus resulting in perioperative embolism: complication of coronary artery bypass grafting (Hartman et al.), 706
Comparison of distribution beyond coronary stenoses of blood and asanguineous cardioplegic solutions (Robertson et al.), 80
Comparison of early and long-term results with intraoperative transluminal balloon catheter dilatation and coronary artery bypass grafting (Roberts et al.), 435
Coronary artery air embolism following pulmonary valvotomy for pulmonary atresia: note of caution (Stewart et al.), 311 (brief comm.)
Coronary artery bypass grafting in patients with ejection fractions below forty percent: early and late results in 466 patients (Hochberg et al.), 519
Coronary revascularization in septuagenarians (Faro et al.), 616
Diagnostic criteria and prognosis of perioperative myocardial infarction following coronary bypass (Guiteras Val et al.), 878
Emergency coronary artery reperfusion: choice therapy for evolving myocardial infarction. Results in 339 patients (Phillips et al.), 679
Growth of aorta-coronary anastomosis: experimental study in pigs (Brutel de la Rivière et al.), 393
Is a left ventricular vent necessary for coronary artery bypass operations performed with cardioplegic arrest? (Breyer et al.), 338
Left internal mammary artery as sequential graft to left anterior descending system (McBride and Barner), 703
Mechanism of plasma catecholamine increases during coronary artery bypass and valve procedures (Engelman et al.), 608
Selective right ventricular dysfunction after coronary artery bypass grafting (Rabinovitch et al.), 444 (brief comm.)
Sequential internal mammary–coronary artery bypass (Kabbani et al.), 697
Supraventricular arrhythmias following coronary artery bypass: effect of preoperative digitalis (Parker et al.), 594
Warm induction of cardioplegia with glutamate-enriched blood in coronary patients with cardiogenic shock who are dependent on inotropic drugs and intra-aortic balloon support: initial experience and operative strategy (Rosenkranz et al.), 507
Coronary bypass. *See* Bypass, coronary; Coronary artery
Coronary inflow restriction
Transmural myocardial flow distribution during hypothermia: effects of coronary inflow restriction (Chitwood et al.), 61
Coronary sinus
Improved myocardial preservation during global ischemia by continuous retrograde coronary sinus perfusion (Bolling et al.), 659

Correspondence
Arteriography in first rib fractures (Poole and Myers), 453
Caval stenosis caused by transvenous pacemaker lead (McKenzie), 791
Compression of major airways by aneurysm of descending thoracic aorta (Varkey), 315
Reply (Charrette et al.), 315
Diaphragmatic paralysis (Maier), 633
Reply (Piehler et al.), 634
Effect of pulsatile flow during cardiopulmonary bypass (Taylor), 454
Reply (Philbin et al.), 455
Entrapment of both leaflets of St. Jude Medical aortic valve prosthesis in child (Sharma et al.), 453
Experimental heart transplantation (Bernhard and Konertz), 314
Reply (Lurie and Reitz), 314
Hall-Kaster aortic valve (Beaudet), 456
Reply (Antunes et al.), 456
Heparin resistance during cardiopulmonary bypass (Hicks), 633
Reply (Esposito), 633
Heterotopic heart transplantation (Losman), 632
Internal mammary artery graft (Singh et al.), 791
Reply (Barner), 792
Massive air embolus due to Pall filter malfunction (Sade et al.), 156
Reply (Pascale), 791
New variation of Damus-Stansel-Kaye procedure for correction of Taussig-Bing anomaly (Glaser and Castaneda), 157
Reply (Sapsford), 157
Propranolol for postoperative supraventricular tachycardia (Mohr et al.), 793
Reply (Ivey), 793
Counterpulsation, balloon
Pulmonary artery balloon counterpulsation for right ventricular failure: experimental evaluation (Jett et al.), 364
Cross-clamping
Cardiac and renal responses to cross-clamping of descending thoracic aorta (Roberts et al.), 732
Crystalloid cardioplegia
High-volume crystalloid cardioplegia: improved method of myocardial preservation (Engelman et al.), 87
Cusp-bearing patch
Short-term hemodynamic results after right ventricular outflow tract reconstruction using cusp-bearing transannular patch (Sievers et al.), 777
Cyclosporine
Single lung transplantation with cyclosporin immunosuppression: evaluation of canine and human recipients (Kamholz et al.), 537
Cystic fibrosis
Emergency lobectomy for massive hemoptysis in cystic fibrosis (Porter et al.), 409

D

Damus-Stansel-Kaye procedure
New variation of Damus-Stansel-Kaye procedure for correction of Taussig-Bing anomaly (Glaser and Castaneda), 157 (letter); Reply (Sapsford), 157
Defect, intracardiac
Turnover operation for pectus excavatum at time of correction of intracardiac defects (Doty and Hawkins), 787 (brief comm.)
Defect, ventricular septal
Palliative right ventricular outflow tract construction for patients with pulmonary atresia, ventricular septal defect, and hypoplastic pulmonary arteries (Freedom et al.), 24
Post–myocardial infarction ventricular septal defect: improved outlook (Miyamoto et al.), 41
Reparative operations for interrupted aortic arch with ventricular septal defect (Norwood et al.), 832
Defibrillator, automatic implantable
Trials of automatic implantable defibrillator in man: three-year program report (Watkins et al.), 381
Device, assist
Late functional and hemodynamic status of surviving patients following insertion of left heart assist device (Rose et al.), 639
Diaphragm
Diaphragmatic paralysis (Maier), 633 (letter); Reply (Piehler et al.), 634
Digitalis
Supraventricular arrhythmias following coronary artery bypass: effect of preoperative digitalis (Parker et al.), 594
Dilatation, transluminal balloon catheter
Comparison of early and long-term results with intraoperative transluminal balloon catheter dilatation and coronary artery bypass grafting (Roberts et al.), 435
Discordance, atrioventricular
Isolated atrioventricular discordance: report of two surgical cases with isolated ventricular inversion (Ostermeyer et al.), 926
Diverticulum of ductus arteriosus
Aneurysm of diverticulum of ductus arteriosus in adult: successful surgical treatment in five patients and review of literature (Mitchell et al.), 400
Donor, organ
Organ donor line available to health professionals, 192
Ductus arteriosus
Aneurysm of diverticulum of ductus arteriosus in adult: successful surgical treatment in five patients and review of literature (Mitchell et al.), 400
Dysfunction, ventricular
Selective right ventricular dysfunction after coronary artery bypass grafting (Rabinovitch et al.), 444 (brief comm.)

E

Editorial
Ligand binding assay and its role in understanding adrenergic receptor function (Homcy), 193
Theodor Billroth and cardiac surgery (Absolon), 451
Ejection fraction
Coronary artery bypass grafting in patients with ejection fractions below forty percent: early and late results in 466 patients (Hochberg et al.), 519
Electrical activity
Atrial electrical activity and its suppression during cardioplegic arrest in pigs (Novick et al.), 235
Embolism
Brain hyperperfusion during cardiac operations. Cerebral blood flow measured in man by intra-arterial injection of xenon 133: evidence suggestive of intraoperative microembolism (Henriksen et al.), 202
Characteristics of left ventricular thrombus resulting in perioperative embolism: complication of coronary artery bypass grafting (Hartman et al.), 706

Embolism—Cont'd
Coronary artery air embolism following pulmonary valvotomy for pulmonary atresia: note of caution (Stewart et al.), 311 (brief comm.)
Massive air embolus due to Pall filter malfunction (Sade et al.), 156 (letter); Reply (Pascale), 791
Empyema
Open window thoracostomy in management of postpneumonectomy empyema with or without bronchopleural fistula (Shamji et al.), 818
Endocarditis
Surgical management of prosthetic valve endocarditis (Raychaudhury et al.), 112
Endomyocardial fibrosis
Endomyocardial fibrosis masquerading as rheumatic mitral incompetence: report of six surgical cases (Metras et al.), 753
Esophagogastrostomy
Avoiding anastomotic leakage following esophagogastrostomy (Liu et al.), 142 (curr. tech.)
Esophagus
Pedunculated liposarcoma of esophagus: first case report (Mansour et al.), 447 (brief comm.)
Extracorporeal circulation
Impairment of baroreflex control of sinoatrial node after cardiac operations with extracorporeal circulation in man (Marin-Neto et al.), 718
Extracorporeal preservation
Light and electron microscopic evaluation of canine hearts orthotopically transplanted after 24 hours of extracorporeal preservation (Tago et al.), 912

F

Failure, ventricular
Pulmonary artery balloon counterpulsation for right ventricular failure: experimental evaluation (Jett et al.), 364
Femoral artery
Left atrium–to–femoral artery bypass: effectiveness in reduction of acute experimental myocardial infarction (Catinella et al.), 887
Fibrillation, ventricular
Spontaneous ventricular fibrillation occurring immediately after institution of cardiopulmonary bypass: possible clinical implications (Salerno and Stefaniszyn), 306 (brief comm.)
Verapamil for refractory ventricular fibrillation during cardiac operations in patients with cardiac hypertrophy (Fyke et al.), 108
Fibrosis, cystic
Emergency lobectomy for massive hemoptysis in cystic fibrosis (Porter et al.), 409
Fibrosis, endomyocardial
Endomyocardial fibrosis masquerading as rheumatic mitral incompetence: report of six surgical cases (Metras et al.), 753
Fibrosis, liver
Liver fibrosis (cardiac cirrhosis) five years after modified Fontan operation for tricuspid atresia (Lemmer et al.), 757
Filter
Massive air embolus due to Pall filter malfunction (Sade et al.), 156 (letter); Reply (Pascale), 791
Fistula, bronchopleural
Open window thoracostomy in management of postpneumonectomy empyema with or without bronchopleural fistula (Shamji et al.), 818
Flail chest
Treatment of flail chest with Judet's struts (Menard et al.), 300 (curr. tech.)
Flow, myocardial
Transmural myocardial flow distribution during hypothermia: effects of coronary inflow restriction (Chitwood et al.), 61
Flow, pulsatile
Effect of pulsatile flow during cardiopulmonary bypass (Taylor), 454 (letter); Reply (Philbin et al.), 455
Fontan operation
Liver fibrosis (cardiac cirrhosis) five years after modified Fontan operation for tricuspid atresia (Lemmer et al.), 757
Fracture, rib
Arteriography in first rib fractures (Poole and Myers), 453 (letter)
Free radical scavengers
Inhibition of surgically induced ischemia/reperfusion injury by oxygen free radical scavengers (Stewart et al.), 262
"French correction"
Cardiac valve surgery—"French correction" (Carpentier), 323 (Honored Guest's Address)
Function, cerebral
Effect of hypothermic circulatory arrest time on cerebral function, morphology, and biochemistry: experimental study (Treasure et al.), 761

G

Glutamate-enriched blood
Warm induction of cardioplegia with glutamate-enriched blood in coronary patients with cardiogenic shock who are dependent on inotropic drugs and intra-aortic balloon support: initial experience and operative strategy (Rosenkranz et al.), 507
Graft
Parallel growth of rectus sheath grafts and recipient aorta: critical role of graft tissue preservation (Bilfinger et al.), 294
Graft, coronary bypass
Antibiotic prophylaxis for coronary bypass grafting: comparison of five-day and two-day course (Hillis et al.), 217
Characteristics of left ventricular thrombus resulting in perioperative embolism: complication of coronary artery bypass grafting (Hartman et al.), 706
Comparison of early and long-term results with intraoperative transluminal balloon catheter dilatation and coronary artery bypass grafting (Roberts et al.), 435
Coronary artery bypass grafting in patients with ejection fractions below forty percent: early and late results in 466 patients (Hochberg et al.), 519
Internal mammary artery graft (Singh et al.), 791 (letter); Reply (Barner et al.), 792
Left internal mammary artery as sequential graft to left anterior descending system (McBride and Barner), 703
Long-term fate of internal mammary artery and saphenous vein grafts (Singh et al.), 359
Selective right ventricular dysfunction after coronary artery bypass grafting (Rabinovitch et al.), 444 (brief comm.)
Guest reviewers
Guest reviewers for The Journal of Thoracic and Cardiovascular Surgery, 799

H

Hall-Kaster prosthesis
Hall-Kaster aortic valve (Beaudet), 456 (letter); Reply (Antunes et al.), 456

Hancock cardiac bioprosthesis
Five- to eight-year follow-up of patients with Hancock cardiac bioprosthesis (Gallo et al.), 897
Hancock valved conduit
Hancock external valved conduit: dichotomy between late clinical results and late cardiac catheterization findings (Stewart et al.), 562
Heart
Cardiac and renal responses to cross-clamping of descending thoracic aorta (Roberts et al.), 732
Coarctation in Taussig-Bing malformation of heart: surgical significance (Parr et al.), 280
Effect of reperfusion temperature and pressure on functional and metabolic recovery of preserved hearts (Swanson and Myerowitz), 242
Mitral valve replacement in young patient with rheumatic heart disease: early and late results in 118 subjects (John et al.), 209
Vascular consequences of subclavian artery transection for treatment of congenital heart disease (Lodge et al.), 18
Heart assist device
Late functional and hemodynamic status of surviving patients following insertion of left heart assist device (Rose et al.), 639
Heart transplantation
Experimental heart transplantation (Bernhard and Konertz), 314 (letter); Reply (Lurie and Reitz), 314
Heterotopic heart transplantation (Losman), 632 (letter)
Light and electron microscopic evaluation of canine hearts orthotopically transplanted after 24 hours of extracorporeal preservation (Tago et al.), 912
Hemodynamic dysfunction
Transient hemodynamic dysfunction after myocardial revascularization: temperature dependence (Czer et al.), 226
Hemodynamic results
Short-term hemodynamic results after right ventricular outflow tract reconstruction using cusp-bearing transannular patch (Sievers et al.), 777
Hemodynamic status
Late functional and hemodynamic status of surviving patients following insertion of left heart assist device (Rose et al.), 639
Hemoptysis
Emergency lobectomy for massive hemoptysis in cystic fibrosis (Porter et al.), 409
Heparin
Heparin resistance during cardiopulmonary bypass (Hicks), 633 (letter); Reply (Esposito), 633
Increased heparin requirements with autotransfusion (Mummaneni et al.), 446 (brief comm.)
High-frequency ventilation
Facilitation of intrathoracic operations by means of high-frequency ventilation (Seki et al.), 388
Honored Guest's Address
Cardiac valve surgery—"French correction" (Carpentier), 323
Hyperkalemia
Scavenging of cardioplegic solution from right heart to prevent hyperkalemia (Kopman and Ferguson), 153 (brief comm.)
Hyperoxia
Persistent myocardial ischemia following chronic hyperoxia in conscious dogs (Borgia et al.), 710
Hyperperfusion, brain
Brain hyperperfusion during cardiac operations. Cerebral blood flow measured in man by intra-arterial injection of xenon 133: evidence suggestive of intraoperative microembolism (Henriksen et al.), 202
Hypertension
Effects of postoperative hypertension and its treatment (Fremes et al.), 47
Hypertrophy, cardiac
Verapamil for refractory ventricular fibrillation during cardiac operations in patients with cardiac hypertrophy (Fyke et al.), 108
Hypoplasia, aortic isthmic
Aortopulmonary window and aortic isthmic hypoplasia: operative management in newborn infants (Tabak et al.), 273
Hypothermia
Effect of hypothermic circulatory arrest time on cerebral function, morphology, and biochemistry: experimental study (Treasure et al.), 761
Hypothermia and circulatory arrest for surgical resection of aortic arch aneurysms (Antunes et al.), 576
Myocardial damage caused by keeping pH 7.40 during systemic deep hypothermia (Nelson et al.), 800
Time course of ischemic alterations during normothermic and hypothermic arrest and its reflection by on-line monitoring of tissue pH (Lange et al.), 418
Transmural myocardial flow distribution during hypothermia: effects of coronary inflow restriction (Chitwood et al.), 61
Whole-body oxygen consumption during low-flow hypothermic cardiopulmonary bypass (Hickey and Hoar), 903
Hypothyroidism
Diagnosis and management of hypothyroid patient with chest pain (Myerowitz et al.), 57

I

Immunosuppression
Single lung transplantation with cyclosporin immunosuppression: evaluation of canine and human recipients (Kamholz et al.), 537
Incompetence, mitral
Endomyocardial fibrosis masquerading as rheumatic mitral incompetence: report of six surgical cases (Metras et al.), 753
Infancy. *See also* Childhood
Aortopulmonary window and aortic isthmic hypoplasia: operative management in newborn infants (Tabak et al.), 273
Coarctation in first year of life: patterns of postoperative effect (Waldman et al.), 9
Interrupted aortic arch: conservative approach for sick neonate (Kron et al.), 37
Management of infants with left ventricular outflow obstruction by conduit interposition between ventricular apex and thoracic aorta (Norwood et al.), 771
Surgical management of severe coarctation of aorta in first month of life: review of 48 consecutive cases (Nair et al.), 587
Infarction, myocardial
Diagnostic criteria and prognosis of perioperative myocardial infarction following coronary bypass (Guiteras Val et al.), 878
Emergency coronary artery reperfusion: choice therapy for evolving myocardial infarction. Results in 339 patients (Phillips et al.), 679
Left atrium–to–femoral artery bypass: effectiveness in reduction of acute experimental myocardial infarction (Catinella et al.), 887
Management of left ventricular rupture complicating myocardial infarction (Pifarré et al.), 441
Post–myocardial infarction ventricular septal defect: improved outlook (Miyamoto et al.), 41

Infection, mediastinal
Complete extra-anatomic bypass of aortic root: treatment of recurrent mediastinal infection (Bove et al.), 932 (brief comm.)
Inotropic drugs
Warm induction of cardioplegia with glutamate-enriched blood in coronary patients with cardiogenic shock who are dependent on inotropic drugs and intra-aortic balloon support: initial experience and operative strategy (Rosenkranz et al.), 507
Insufficiency, aortic
Surgical treatment of aneurysm of ascending aorta with aortic insufficiency: selective approach (Grey et al.), 864
Intellectual creativity
Intellectual creativity in thoracic surgeons (Spencer), 163 (Presidential Address)
Intercostal nerve blocks
Complications of intercostal nerve blocks performed under direct vision during thoracotomy: report of two cases (Gallo et al.), 628 (brief comm.)
Internal mammary artery
Left internal mammary artery as sequential graft to left anterior descending system (McBride and Barner), 703
Long-term fate of internal mammary artery and saphenous vein grafts (Singh et al.), 359
Sequential internal mammary–coronary artery bypass (Kabbani et al.), 697
Interrupted aortic arch
Pulmonary artery partition: new method for correction of interrupted aortic arch (Utley et al.), 309 (brief comm.)
Repair of type B interruption of aortic arch: results and follow-up (Braunlin et al.), 920
Reparative operations for interrupted aortic arch with ventricular septal defect (Norwood et al.), 832
Intra-aortic balloon
Surgical versus percutaneous removal of intra-aortic balloon (Cutler et al.), 907
Warm induction of cardioplegia with glutamate-enriched blood in coronary patients with cardiogenic shock who are dependent on inotropic drugs and intra-aortic balloon support: initial experience and operative strategy (Rosenkranz et al.), 507
Intramyocardial pH
First report of intramyocardial pH in man. II. Assessment of adequacy of myocardial preservation (Khuri et al.), 667
Intrathoracic operations
Facilitation of intrathoracic operations by means of high-frequency ventilation (Seki et al.), 388
Inversion, ventricular
Isolated atrioventricular discordance: report of two surgical cases with isolated ventricular inversion (Ostermeyer et al.), 926
Ionescu-Shiley valve
Early experience with Ionescu-Shiley pericardial xenograft valve: accelerated calcification in children (Walker et al.), 570
Spontaneous disruption of Ionescu-Shiley bovine pericardial xenograft in mitral position (Ghosh et al.), 784 (brief comm.)
Irrigants, antibacterial
Pericardial injury by antibacterial irrigants (Kratz et al.), 785 (brief comm.)
Ischemia
Improved myocardial preservation during global ischemia by continuous retrograde coronary sinus perfusion (Bolling et al.), 659
Inhibition of surgically induced ischemia/reperfusion injury by oxygen free radical scavengers (Stewart et al.), 262
Persistent myocardial ischemia following chronic hyperoxia in conscious dogs (Borgia et al.), 710
Ischemia—Cont'd
Time course of ischemic alterations during normothermic and hypothermic arrest and its reflection by on-line monitoring of tissue pH (Lange et al.), 418
Isomerism, left atrial
Surgical correction in mirror-image atrial arrangement or left atrial isomerism with systemic venous return to left-sided atrium (Pillai et al.), 288

J

Judet's strats
Treatment of flail chest with Judet's struts (Menard et al.), 300 (curr. tech.)

K

Kidney
Cardiac and renal responses to cross-clamping of descending thoracic aorta (Roberts et al.), 732

L

Laser, carbon dioxide
Treatment of malignant disease in trachea and main-stem bronchi by carbon dioxide laser (McElvein and Zorn), 858
Lead, pacemaker
Caval stenosis caused by transvenous pacemaker lead (McKenzie), 791 (letter)
Leaflet, valve
Entrapment of both leaflets of St. Jude Medical aortic valve prosthesis in child (Sharma et al.), 453 (letter)
Leakage, anastomotic
Avoiding anastomotic leakage following esophagogastrostomy (Liu et al.), 142 (curr. tech.)
Ligand binding assay
Ligand binding assay and its role in understanding adrenergic receptor function (Homcy), 193 (edit.)
Liposarcoma
Pedunculated liposarcoma of esophagus: first case report (Mansour et al.), 447 (brief comm.)
Liver fibrosis
Liver fibrosis (cardiac cirrhosis) five years after modified Fontan operation for tricuspid atresia (Lemmer et al.), 757
Lobectomy
Emergency lobectomy for massive hemoptysis in cystic fibrosis (Porter et al.), 409
Lung
Modern thirty-day operative mortality for surgical resections in lung cancer (Ginsberg et al.), 654
Prognostic significance of N1 disease in carcinoma of lung (Martini et al.), 646
Reduction in local recurrence and improved survival in surgically treated patients with small cell lung cancer (Shepherd et al.), 498
Regional and overall pulmonary function changes in lung cancer: correlations with tumor stage, extent of pulmonary resection, and patient survival (Ali et al.), 1
Roentgenographically occult lung cancer: ten-year experience (Cortese et al.), 373
Single lung transplantation with cyclosporin immunosuppression: evaluation of canine and human recipients (Kamholz et al.), 537

M

Malignant disease
Treatment of malignant disease in trachea and main-stem bronchi by carbon dioxide laser (McElvein and Zorn), 858

Mammary artery, internal
Internal mammary artery graft (Singh et al.), 791 (letter); Reply (Barner et al.), 792
Left internal mammary artery as sequential graft to left anterior descending system (McBride and Barner), 703
Long-term fate of internal mammary artery and saphenous vein grafts (Singh et al.), 359
Sequential internal mammary–coronary artery bypass (Kabbani et al.), 697
Mediastinal infection
Complete extra-anatomic bypass of aortic root: treatment of recurrent mediastinal infection (Bove et al.), 932 (brief comm.)
Mediastinum
Benign teratomas of mediastinum (Lewis et al.), 727
Metabolic recovery
Effect of reperfusion temperature and pressure on functional and metabolic recovery of preserved hearts (Swanson and Myerowitz), 242
Microscopy
Light and electron microscopic evaluation of canine hearts orthotopically transplanted after 24 hours of extracorporeal preservation (Tago et al.), 912
Mirror-image atrial arrangement
Surgical correction in mirror-image atrial arrangement or left atrial isomerism with systemic venous return to left-sided atrium (Pillai et al.), 288
Mitral valve
Computer-assisted design of pivoting disc prosthetic mitral valves (McQueen and Peskin), 126
Endomyocardial fibrosis masquerading as rheumatic mitral incompetence: report of six surgical cases (Metras et al.), 753
Experimental mitral regurgitation: physiological effects of correction on left ventricular dynamics (Spratt et al.), 479
Mitral reconstructive operations: series of 130 consecutive cases (Lessana et al.), 553
Mitral valve replacement in young patient with rheumatic heart disease: early and late results in 118 subjects (John et al.), 209
Spontaneous disruption of Ionescu-Shiley bovine pericardial xenograft in mitral position (Ghosh et al.), 784 (brief comm.)
Type I left ventricular rupture after mitral valve replacement (Devineni and McKenzie), 742
Monocusp pulmonary valve
Autologous monocusp pulmonary valve: preliminary results of new surgical technique (Iacobone et al.), 930 (brief comm.)
Morphology, cerebral
Effect of hypothermic circulatory arrest time on cerebral function, morphology, and biochemistry: experimental study (Treasure et al.), 761
Muscle, skeletal
Intrathoracic transposition of extrathoracic skeletal muscle (Pairolero et al.), 809
Myocardial damage
Myocardial damage caused by keeping pH 7.40 during systemic deep hypothermia (Nelson et al.), 800
Myocardial flow
Transmural myocardial flow distribution during hypothermia: effects of coronary inflow restriction (Chitwood et al.), 61
Myocardial function
Alterations in regional myocardial function after heterogeneous cardioplegia (Dorsey et al.), 70
Myocardial infarction
Diagnostic criteria and prognosis of perioperative myocardial infarction following coronary bypass (Guiteras Val et al.), 878
Myocardial infarction—Cont'd
Emergency coronary artery reperfusion: choice therapy for evolving myocardial infarction. Results in 339 patients (Phillips et al.), 679
Left atrium–to–femoral artery bypass: effectiveness in reduction of acute experimental myocardial infarction (Catinella et al.), 887
Management of left ventricular rupture complicating myocardial infarction (Pifarré et al.), 441
Persistent myocardial ischemia following chronic hyperoxia in conscious dogs (Borgia et al.), 710
Post–myocardial infarction ventricular septal defect: improved outlook (Miyamoto et al.), 41
Myocardial preservation
First report of intramyocardial pH in man. II. Assessment of adequacy of myocardial preservation (Khuri et al.), 667
High-volume crystalloid cardioplegia: improved method of myocardial preservation (Engelman et al.), 87
Improved myocardial preservation during global ischemia by continuous retrograde coronary sinus perfusion (Bolling et al.), 659
Myocardial revascularization
Transient hemodynamic dysfunction after myocardial revascularization: temperature dependence (Czer et al.), 226
Myxoma
Arrhythmias and conduction disturbances following cardiac operation for removal of left atrial myxomas (Bateman et al.), 601

N

N1 disease
Prognostic significance of N1 disease in carcinoma of lung (Martini et al.), 646
Nerve blocks
Complications of intercostal nerve blocks performed under direct vision during thoracotomy: report of two cases (Gallo et al.), 628 (brief comm.)
Node, sinoatrial
Impairment of baroreflex control of sinoatrial node after cardiac operations with extracorporeal circulation in man (Marin-Neto et al.), 718
Non–small cell bronchogenic carcinoma
Treatment of modified Stage II (T1 N1 M0, T2 N1 M0) non–small cell bronchogenic carcinoma: combined modality approach (Newman et al.), 180
Normothermic arrest
Time course of ischemic alterations during normothermic and hypothermic arrest and its reflection by on-line monitoring of tissue pH (Lange et al.), 418

O

Obstruction, left ventricular outflow
Management of infants with left ventricular outflow obstruction by conduit interposition between ventricular apex and thoracic aorta (Norwood et al.), 771
Omniscience prosthesis
Results of valve replacement with Omniscience prosthesis (Fananapazir et al.), 621
Operative transluminal angioplasty
Technique and results of operative transluminal angioplasty in 81 consecutive patients (Mills et al.), 689
Organ donor line
Organ donor line available to health professionals, 192

Outflow obstruction, left ventricular
Management of infants with left ventricular outflow obstruction by conduit interposition between ventricular apex and thoracic aorta (Norwood et al.), 771
Outflow tract, right ventricular
Palliative right ventricular outflow tract construction for patients with pulmonary atresia, ventricular septal defect, and hypoplastic pulmonary arteries (Freedom et al.), 24
Short-term hemodynamic results after right ventricular outflow tract reconstruction using cusp-bearing transannular patch (Sievers et al.), 777
Oxygen
Inhibition of surgically induced ischemia/reperfusion injury by oxygen free radical scavengers (Stewart et al.), 262
Whole-body oxygen consumption during low-flow hypothermic cardiopulmonary bypass (Hickey and Hoar), 903

P

Pacemaker lead
Caval stenosis caused by transvenous pacemaker lead (McKenzie), 791 (letter)
Pain, chest
Diagnosis and management of hypothyroid patient with chest pain (Myerowitz et al.), 57
Pall filter
Massive air embolus due to Pall filter malfunction (Sade et al.), 156 (letter); Reply (Pascale), 791
Paralysis
Diaphragmatic paralysis (Maier), 633 (letter); Reply (Piehler et al.), 634
Patch
Enlargement of aortic root or anulus with autogenous pericardial patch during aortic valve replacement: long-term follow-up (Piehler et al.), 350
Short-term hemodynamic results after right ventricular outflow tract reconstruction using cusp-bearing transannular patch (Sievers et al.), 777
Pectus excavatum
Turnover operation for pectus excavatum at time of correction of intracardiac defects (Doty and Hawkins), 787 (brief comm.)
Perfusion
Improved myocardial preservation during global ischemia by continuous retrograde coronary sinus perfusion (Bolling et al.), 659
Pericardial injury
Pericardial injury by antibacterial irrigants (Kratz et al.), 785 (brief comm.)
Pericardial patch
Enlargement of aortic root or anulus with autogenous pericardial patch during aortic valve replacement: long-term follow-up (Piehler et al.), 350
Pericardial valve
Early experience with Ionescu-Shiley pericardial xenograft valve: accelerated calcification in children (Walker et al.), 570
Spontaneous disruption of Ionescu-Shiley bovine pericardial xenograft in mitral position (Ghosh et al.), 784 (brief comm.)
pH
First report of intramyocardial pH in man. II. Assessment of adequacy of myocardial preservation (Khuri et al.), 667
Myocardial damage caused by keeping pH 7.40 during systemic deep hypothermia (Nelson et al.), 800
pH—Cont'd
Time course of ischemic alterations during normothermic and hypothermic arrest and its reflection by on-line monitoring of tissue pH (Lange et al.), 418
Plasma catecholamine
Mechanism of plasma catecholamine increases during coronary artery bypass and valve procedures (Engelman et al.), 608
Pleurodesis
Tetracycline versus silver nitrate pleurodesis in spontaneous pneumothorax (Wied et al.), 591
Pneumonectomy
Open window thoracostomy in management of postpneumonectomy empyema with or without bronchopleural fistula (Shamji et al.), 818
Pneumothorax
Tetracycline versus silver nitrate pleurodesis in spontaneous pneumothorax (Wied et al.), 591
Polyglycolic acid sutures
Atrial wound healing with polyglycolic acid and polypropylene sutures (Vincent et al.), 150 (brief comm.)
Polypropylene sutures
Atrial wound healing with polyglycolic acid and polypropylene sutures (Vincent et al.), 150 (brief comm.)
Preservation
Parallel growth of rectus sheath grafts and recipient aorta: critical role of graft tissue preservation (Bilfinger et al.), 294
Preservation, myocardial
Effect of reperfusion temperature and pressure on functional and metabolic recovery of preserved hearts (Swanson and Myerowitz), 242
First report of intramyocardial pH in man. II. Assessment of adequacy of myocardial preservation (Khuri et al.), 667
High-volume crystalloid cardioplegia: improved method of myocardial preservation (Engelman et al.), 87
Improved myocardial preservation during global ischemia by continuous retrograde coronary sinus perfusion (Bolling et al.), 659
Light and electron microscopic evaluation of canine hearts orthotopically transplanted after 24 hours of extracorporeal preservation (Tago et al.), 912
Propranolol
Propranolol for postoperative supraventricular tachycardia (Mohr et al.), 793 (letter); Reply (Ivey), 793
Presidential address
Intellectual creativity in thoracic surgeons (Spencer), 163
Pressure, reperfusion
Effect of reperfusion temperature and pressure on functional and metabolic recovery of preserved hearts (Swanson and Myerowitz), 242
Prophylaxis, antibiotic
Antibiotic prophylaxis for coronary bypass grafting: comparison of five-day and two-day course (Hillis et al.), 217
Prosthesis, valve
Computer-assisted design of pivoting disc prosthetic mitral valves (McQueen and Peskin), 126
Entrapment of both leaflets of St. Jude Medical aortic valve prosthesis in child (Sharma et al.), 453 (letter)
Mechanical valves: comparative analysis of Starr-Edwards and Björk-Shiley prostheses (Murphy et al.), 746
Physical analysis of Björk-Shiley prosthetic valve sound (Schöndube et al.), 136
Reoperation on prosthetic heart valves: analysis of risk factors in 552 patients (Husebye et al.), 543

Prosthesis, valve—Cont'd
Results of valve replacement with Omniscience prosthesis (Fananapazir et al.), 621
Surgical management of prosthetic valve endocarditis (Raychaudhury et al.), 112
Psychological development
Duration of circulatory arrest does influence psychological development of children after cardiac operation in early life (Wells et al.), 823
Pulmonary artery
Catheter-induced pulmonary arterial trauma: Can it always be averted? (Stone et al.), 146 (brief comm.)
Extrathoracically adjustable pulmonary artery banding (Muraoka et al.), 582
Palliative right ventricular outflow tract construction for patients with pulmonary atresia, ventricular septal defect, and hypoplastic pulmonary arteries (Freedom et al.), 24
Pulmonary artery balloon counterpulsation for right ventricular failure: experimental evaluation (Jett et al.), 364
Pulmonary artery partition: new method for correction of interrupted aortic arch (Utley et al.), 309 (brief comm.)
Valved and nonvalved right ventricular–pulmonary arterial extracardiac conduits: experimental comparison (Fiore et al.), 490
Pulmonary atresia
Coronary artery air embolism following pulmonary valvotomy for pulmonary atresia: note of caution (Stewart et al.), 311 (brief comm.)
Palliative right ventricular outflow tract construction for patients with pulmonary atresia, ventricular septal defect, and hypoplastic pulmonary arteries (Freedom et al.), 24
Pulmonary function
Prediction of postoperative pulmonary function following thoracic operations: value of ventilation-perfusion scanning (Bria et al.), 186
Regional and overall pulmonary function changes in lung cancer: correlations with tumor stage, extent of pulmonary resection, and patient survival (Ali et al.), 1
Pulmonary resection
Regional and overall pulmonary function changes in lung cancer: correlations with tumor stage, extent of pulmonary resection, and patient survival (Ali et al.), 1
Pulmonary tumor
Typical and atypical carcinoids within pulmonary APUD tumor spectrum (DeCaro et al.), 528
Pulmonary valve
Autologous monocusp pulmonary valve: preliminary results of new surgical technique (Iacobone et al.), 930 (brief comm.)
Coronary artery air embolism following pulmonary valvotomy for pulmonary atresia: note of caution (Stewart et al.), 311 (brief comm.)

R

Receptor density, adrenergic
Increased β-adrenergic receptor density in experimental model of cardiac transplantation (Lurie et al.), 195
Receptor function, adrenergic
Ligand binding assay and its role in understanding adrenergic receptor function (Homcy), 193 (edit.)
Reconstruction, mitral
Mitral reconstructive operations: series of 130 consecutive cases (Lessana et al.), 553
Rectus sheath
Parallel growth of rectus sheath grafts and recipient aorta: critical role of graft tissue preservation (Bilfinger et al.), 294
Regurgitation, mitral
Experimental mitral regurgitation: physiological effects of correction on left ventricular dynamics (Spratt et al.), 479
Reoperation
Reoperation on prosthetic heart valves: analysis of risk factors in 552 patients (Husebye et al.), 543
Reperfusion
Effect of reperfusion temperature and pressure on functional and metabolic recovery of preserved hearts (Swanson and Myerowitz), 242
Reperfusion
Emergency coronary artery reperfusion: choice therapy for evolving myocardial infarction. Results in 339 patients (Phillips et al.), 679
Inhibition of surgically induced ischemia/reperfusion injury by oxygen free radical scavengers (Stewart et al.), 262
Replacement, valve. *See also* Valve
Enlargement of aortic root or anulus with autogenous pericardial patch during aortic valve replacement: long-term follow-up (Piehler et al.), 350
Mitral valve replacement in young patient with rheumatic heart disease: early and late results in 118 subjects (John et al.), 209
Results of valve replacement with Omniscience prosthesis (Fananapazir et al.), 621
Type I left ventricular rupture after mitral valve replacement (Devineni and McKenzie), 742
Revascularization. *See also* Bypass, coronary
Coronary revascularization in septuagenarians (Faro et al.), 616
Transient hemodynamic dysfunction after myocardial revascularization: temperature dependence (Czer et al.), 226
Rheumatic heart disease
Mitral valve replacement in young patient with rheumatic heart disease: early and late results in 118 subjects (John et al.), 209
Rheumatic mitral incompetence
Endomyocardial fibrosis masquerading as rheumatic mitral incompetence: report of six surgical cases (Metras et al.), 753
Rib fracture
Arteriography in first rib fractures (Poole and Myers), 453 (letter)
Root, aortic
Complete extra-anatomic bypass of aortic root: treatment of recurrent mediastinal infection (Bove et al.), 932 (brief comm.)
Enlargement of aortic root or anulus with autogenous pericardial patch during aortic valve replacement: long-term follow-up (Piehler et al.), 350
Rupture
Management of left ventricular rupture complicating myocardial infarction (Pifarré et al.), 441
Spontaneous nontraumatic rupture of thoracic aorta (Widder et al.), 626 (brief comm.)
Type I left ventricular rupture after mitral valve replacement (Devineni and McKenzie), 742

S

Samson Thoracic Surgical Society
Announcement of 1984 Annual Meeting, 161, 321, 477, 637, 797, 937
Saphenous vein
Long-term fate of internal mammary artery and saphenous vein grafts (Singh et al.), 359

Scanning, ventilation-perfusion
Prediction of postoperative pulmonary function following thoracic operations: value of ventilation-perfusion scanning (Bria et al.), 186
Septal defect, ventricular
Palliative right ventricular outflow tract construction for patients with pulmonary atresia, ventricular septal defect, and hypoplastic pulmonary arteries (Freedom et al.), 24
Post–myocardial infarction ventricular septal defect: improved outlook (Miyamoto et al.), 41
Reparative operations for interrupted aortic arch with ventricular septal defect (Norwood et al.), 832
Septuagenarians
Coronary revascularization in septuagenarians (Faro et al.), 616
Shock, cardiogenic
Warm induction of cardioplegia with glutamate-enriched blood in coronary patients with cardiogenic shock who are dependent on inotropic drugs and intra-aortic balloon support: initial experience and operative strategy (Rosenkranz et al.), 507
Silver nitrate
Tetracycline versus silver nitrate pleurodesis in spontaneous pneumothorax (Wied et al.), 591
Sinoatrial node
Impairment of baroreflex control of sinoatrial node after cardiac operations with extracorporeal circulation in man (Marin-Neto et al.), 718
Sinus, coronary
Improved myocardial preservation during global ischemia by continuous retrograde coronary sinus perfusion (Bolling et al.), 659
Skeletal muscle
Intrathoracic transposition of extrathoracic skeletal muscle (Pairolero et al.), 809
Small cell lung cancer
Reduction in local recurrence and improved survival in surgically treated patients with small cell lung cancer (Shepherd et al.), 498
Solution, cardioplegic. *See* Cardioplegia
Sound, valve
Physical analysis of Björk-Shiley prosthetic valve sound (Schöndube et al.), 136
St. Jude Medical prosthesis
Entrapment of both leaflets of St. Jude Medical aortic valve prosthesis in child (Sharma et al.), 453 (letter)
Starr-Edwards prosthesis
Mechanical valves: comparative analysis of Starr-Edwards and Björk-Shiley prostheses (Murphy et al.), 746
Stenosis
Caval stenosis caused by transvenous pacemaker lead (McKenzie), 791 (letter)
Comparison of distribution beyond coronary stenoses of blood and asanguineous cardioplegic solutions (Robertson et al.), 80
Stress
Role of mechanical stress in calcification of aortic bioprosthetic valves (Thubrikar et al.), 115
Struts, Judet's
Treatment of flail chest with Judet's struts (Menard et al.), 300 (curr. tech.)
Subclavian artery transection
Vascular consequences of subclavian artery transection for treatment of congenital heart disease (Lodge et al.), 18
Supraventricular arrhythmias
Supraventricular arrhythmias following coronary artery bypass: effect of preoperative digitalis (Parker et al.), 594
Supraventricular tachycardia
Propranolol for postoperative supraventricular tachycardia (Mohr et al.), 793 (letter); Reply (Ivey), 793
Suture
Atrial wound healing with polyglycolic acid and polypropylene sutures (Vincent et al.), 150 (brief comm.)

T

Tachycardia, supraventricular
Propranolol for postoperative supraventricular tachycardia (Mohr et al.), 793 (letter); Reply (Ivey), 793
Taussig-Bing malformation
Coarctation in Taussig-Bing malformation of heart: surgical significance (Parr et al.), 280
New variation of Damus-Stansel-Kaye procedure for correction of Taussig-Bing anomaly (Glaser and Castaneda), 157 (letter); Reply (Sapsford), 157
Temperature
Effect of reperfusion temperature and pressure on functional and metabolic recovery of preserved hearts (Swanson and Myerowitz), 242
Transient hemodynamic dysfunction after myocardial revascularization: temperature dependence (Czer et al.), 226
Teratomas, benign
Benign teratomas of mediastinum (Lewis et al.), 727
Tetracycline
Tetracycline versus silver nitrate pleurodesis in spontaneous pneumothorax (Wied et al.), 591
Thoracic aorta
Cardiac and renal responses to cross-clamping of descending thoracic aorta (Roberts et al.), 732
Compression of major airways by aneurysm of descending thoracic aorta (Varkey), 315 (letter); Reply (Charrette et al.), 315
Management of infants with left ventricular outflow obstruction by conduit interposition between ventricular apex and thoracic aorta (Norwood et al.), 771
Spontaneous nontraumatic rupture of thoracic aorta (Widder et al.), 626 (brief comm.)
Thoracostomy
Open window thoracostomy in management of postpneumonectomy empyema with or without bronchopleural fistula (Shamji et al.), 818
Thrombus
Characteristics of left ventricular thrombus resulting in perioperative embolism: complication of coronary artery bypass grafting (Hartman et al.), 706
Tissue pH
Time course of ischemic alterations during normothermic and hypothermic arrest and its reflection by on-line monitoring of tissue pH (Lange et al.), 418
Trachea
Treatment of malignant disease in trachea and main-stem bronchi by carbon dioxide laser (McElvein and Zorn), 858
Transluminal angioplasty, operative
Technique and results of operative transluminal angioplasty in 81 consecutive patients (Mills et al.), 689

Transluminal balloon catheter dilatation
Comparison of early and long-term results with intraoperative transluminal balloon catheter dilatation and coronary artery bypass grafting (Roberts et al.), 435
Transplantation, heart
Experimental heart transplantation (Bernhard and Konertz), 314 (letter); Reply (Lurie and Reitz), 314
Heterotopic heart transplantation (Losman), 632 (letter)
Increased β-adrenergic receptor density in experimental model of cardiac transplantation (Lurie et al.), 195
Light and electron microscopic evaluation of canine hearts orthotopically transplanted after 24 hours of extracorporeal preservation (Tago et al.), 912
Transplantation, lung
Single lung transplantation with cyclosporin immunosuppression: evaluation of canine and human recipients (Kamholz et al.), 537
Transposition
Intrathoracic transposition of extrathoracic skeletal muscle (Pairolero et al.), 809
Transvenous pacemaker lead
Caval stenosis caused by transvenous pacemaker lead (McKenzie), 791 (letter)
Trauma
Catheter-induced pulmonary arterial trauma: Can it always be averted? (Stone et al.), 146 (brief comm.)
Tricuspid atresia
Liver fibrosis (cardiac cirrhosis) five years after modified Fontan operation for tricuspid atresia (Lemmer et al.), 757
Tumor, pulmonary
Typical and atypical carcinoids within pulmonary APUD tumor spectrum (DeCaro et al.), 528
Turnover operation
Turnover operation for pectus excavatum at time of correction of intracardiac defects (Doty and Hawkins), 787 (brief comm.)

V

Valve. *See also* specific valve
Acute, complete, extrinsic obstruction of Björk-Shiley valve in immediate postoperative period (Blasko et al.), 630 (brief comm.)
Autologous monocusp pulmonary valve: preliminary results of new surgical technique (Iacobone et al.), 930 (brief comm.)
Cardiac valve surgery—"French correction" (Carpentier), 323 (Honored Guest's Address)
Computer-assisted design of pivoting disc prosthetic mitral valves (McQueen and Peskin), 126
Early experience with Ionescu-Shiley pericardial xenograft valve: accelerated calcification in children (Walker et al.), 570
Hall-Kaster aortic valve (Beaudet), 456 (letter); Reply (Antunes et al.), 456
Mechanical valves: comparative analysis of Starr-Edwards and Björk-Shiley prostheses (Murphy et al.), 746
Mechanism of plasma catecholamine increases during coronary artery bypass and valve procedures (Engelman et al.), 608
Mitral valve replacement in young patient with rheumatic heart disease: early and late results in 118 subjects (John et al.), 209
Entrapment of both leaflets of St. Jude Medical aortic valve prosthesis in child (Sharma et al.), 453 (letter)
Physical analysis of Björk-Shiley prosthetic valve sound (Schöndube et al.), 136
Valve—Cont'd
Reoperation on prosthetic heart valves: analysis of risk factors in 552 patients (Husebye et al.), 543
Results of valve replacement with Omniscience prosthesis (Fananapazir et al.), 621
Role of mechanical stress in calcification of aortic bioprosthetic valves (Thubrikar et al.), 115
Spontaneous disruption of Ionescu-Shiley bovine pericardial xenograft in mitral position (Ghosh et al.), 784 (brief comm.)
Surgical management of prosthetic valve endocarditis (Raychaudhury et al.), 112
Type I left ventricular rupture after mitral valve replacement (Devineni and McKenzie), 742
Valved conduit
Hancock external valved conduit: dichotomy between late clinical results and late cardiac catheterization findings (Stewart et al.), 562
Valved and nonvalved right ventricular–pulmonary arterial extracardiac conduits: experimental comparison (Fiore et al.), 490
Valvotomy, pulmonary
Coronary artery air embolism following pulmonary valvotomy for pulmonary atresia: note of caution (Stewart et al.), 311 (brief comm.)
Vein graft
Long-term fate of internal mammary artery and saphenous vein grafts (Singh et al.), 359
Venous return, systemic
Surgical correction in mirror-image atrial arrangement or left atrial isomerism with systemic venous return to left-sided atrium (Pillai et al.), 288
Vent
Is a left ventricular vent necessary for coronary artery bypass operations performed with cardioplegic arrest? (Breyer et al.), 338
Ventilation, high-frequency
Facilitation of intrathoracic operations by means of high-frequency ventilation (Seki et al.), 388
Ventilation-perfusion scanning
Prediction of postoperative pulmonary function following thoracic operations: value of ventilation-perfusion scanning (Bria et al.), 186
Ventricular apex
Management of infants with left ventricular outflow obstruction by conduit interposition between ventricular apex and thoracic aorta (Norwood et al.), 771
Ventricular conduit
Valved and nonvalved right ventricular–pulmonary arterial extracardiac conduits: experimental comparison (Fiore et al.), 490
Ventricular dynamics
Experimental mitral regurgitation: physiological effects of correction on left ventricular dynamics (Spratt et al.), 479
Ventricular dysfunction
Selective right ventricular dysfunction after coronary artery bypass grafting (Rabinovitch et al.), 444 (brief comm.)
Ventricular failure
Pulmonary artery balloon counterpulsation for right ventricular failure: experimental evaluation (Jett et al.), 364
Ventricular fibrillation
Spontaneous ventricular fibrillation occurring immediately after institution of cardiopulmonary bypass: possible clinical implications (Salerno and Stefaniszyn), 306 (brief comm.)

Ventricular fibrillation—Cont'd
Verapamil for refractory ventricular fibrillation during cardiac operations in patients with cardiac hypertrophy (Fyke et al.), 108
Ventricular inversion
Isolated atrioventricular discordance: report of two surgical cases with isolated ventricular inversion (Ostermeyer et al.), 926
Ventricular outflow
Management of infants with left ventricular outflow obstruction by conduit interposition between ventricular apex and thoracic aorta (Norwood et al.), 771
Palliative right ventricular outflow tract construction for patients with pulmonary atresia, ventricular septal defect, and hypoplastic pulmonary arteries (Freedom et al.), 24
Short-term hemodynamic results after right ventricular outflow tract reconstruction using cusp-bearing transannular patch (Sievers et al.), 777
Ventricular rupture
Management of left ventricular rupture complicating myocardial infarction (Pifarré et al.), 441
Type I left ventricular rupture after mitral valve replacement (Devineni and McKenzie), 742
Ventricular septal defect
Palliative right ventricular outflow tract construction for patients with pulmonary atresia, ventricular septal defect, and hypoplastic pulmonary arteries (Freedom et al.), 24
Post–myocardial infarction ventricular septal defect: improved outlook (Miyamoto et al.), 41
Reparative operations for interrupted aortic arch with ventricular septal defect (Norwood et al.), 832
Ventricular thrombus
Characteristics of left ventricular thrombus resulting in perioperative embolism: complication of coronary artery bypass grafting (Hartman et al.), 706
Ventricular vent
Is a left ventricular vent necessary for coronary artery bypass operations performed with cardioplegic arrest? (Breyer et al.), 338
Verapamil
Cardioplegia and slow calcium-channel blockers: studies with verapamil (Yamamoto et al.), 252
Verapamil for refractory ventricular fibrillation during cardiac operations in patients with cardiac hypertrophy (Fyke et al.), 108

W

Window
Aortopulmonary window and aortic isthmic hypoplasia: operative management in newborn infants (Tabak et al.), 273
Open window thoracostomy in management of postpneumonectomy empyema with or without bronchopleural fistula (Shamji et al.), 818

X

Xenograft
Early experience with Ionescu-Shiley pericardial xenograft valve: accelerated calcification in children (Walker et al.), 570
Spontaneous disruption of Ionescu-Shiley bovine pericardial xenograft in mitral position (Ghosh et al.), 784 (brief comm.)
Xenon 133
Brain hyperperfusion during cardiac operations. Cerebral blood flow measured in man by intra-arterial injection of xenon 133: evidence suggestive of intraoperative microembolism (Henriksen et al.), 202
